Anchorage, Alaska 99503

**Re: Coverage under the Wastewater Discharge Authorization Program (WADP)
General Permit 2016DB0001 Class I Well Waste Disposal**

Dear Mr. Wilkins:

The Alaska Department of Environmental Conservation (DEC), WADP is reissuing authorization 2016DB0001-0020 – Hilcorp Alaska LLC, Northstar Production Facility Class I Underground Injection Control (UIC) Wells, NS-10 and NS-32. This issuance is in response to the Notice of Disposal (NOD) dated November 29, 2016 and authorizes the injection of nonhazardous industrial waste fluids as described in the Environmental Protection Agency (EPA) permit AK-11002-B. Specifically, the Class I UIC wells will be used for the disposal of wastes described in the Waste Analysis Plan (WAP) submitted to DEC with the NOD.

The permittee must submit EPA Form 7520-8 and the DEC annual report form (enclosed) by January 31st of the following year. If the WAP was modified during the previous year, the revised WAP must also be submitted. Copies of other reports required by EPA (e.g., mechanical integrity reports) are not to be submitted to DEC. In all correspondence and reporting, prominently place the DEC authorization number in the subject line or title. EPA permit numbers may be provided as a cross-reference only. Submittals including reports and notifications must be sent to:

Department of Environmental Conservation
Division of Water
Oil and Gas Section
555 Cordova Street
Anchorage, AK 99501
dec.water.oilandgas@alaska.gov

If you have any comments or questions regarding this authorization, please contact Marc Bentley at (907) 269-6287, marc.bentley@alaska.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerry R. Brown". The signature is stylized with a large initial "G" and "R".
